

# UTILITIES & INDUSTRIES

## Serving the Natural Gas Industry

### Appalachian Gas Show

This year the Appalachian Gas Measurement Short Course is August 3, 4, 5, and 6 at Robert Morris University. It is the 75th year for the show and Utilities & Industries always looks forward to attending the event. Every year we send a select group of our Employees to receive training, that way we can guarantee our customers top quality meters. We are very excited to meet all the new exhibitors and attendees this year.

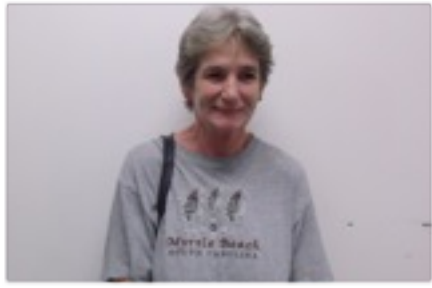

For more information on the show go to [www.AGMSC.org](http://www.AGMSC.org).

### Message from the CEO

Utilities & Industries is very excited to announce that we will be expanding our warehouse space. Utilities & Industries obtained a new warehousing facility that will give us 36,000 additional square feet of space to warehouse our customers meters.

We are also excited to announce that we will be attending the Appalachian Gas show at Robert Morris University this August. We have been attending this show for years now, and always look forward to this event.

## Employee of the Month

Here at Utilities & Industries we like to reward our Employees for their handwork and dedication. This month we are honoring Sharon Alexander.

Sharon has been selected for employee of the month because she displays a great work ethic. Sharon is attentive, punctual, and has a positive attitude towards her work and coworkers.

## New Website Feature

For companies that are interested in learning about our special services, they can now request a catalog on our website.

Utilities and Industries is excited about the new catalog and the new feature on their website, it will allow new companies to understand what Utilities and Industries has to offer them.

## 4th of July Company Picnic

On June 25th, Utilities & Industries held its annual 4th of July picnic for its employees. Utilities & Industries enjoys having the annual to event to reward everyone for their hard work and to bring everyone together.

## Utilities & Industries Custom Fabrication Services

Utilities and Industries has fabricated many different Meter Sets and Regulation Stations for various customers.

We have built many different types to fit the standards and needs of each company needing a custom project made. If you are looking for something specific, tell us what you need and we can build it for you! Send us your blueprint or specs to start the process.

Here are some examples of meter sets and regulation stations we have built for customers.
